

# STANDARD DRAPERIES

We do not have a workroom of our own, however we will recommend someone to make draperies for you. Prices vary according to the job. If you have your measurements, we will be happy to figure how many yards you will need.

## FIGURING YARDAGE FOR STANDARD DRAPERIES

(Note: always figure in inches)

### A. Figure the number of widths you will need:

Finished Drapery Width (rod length)		_____	”
Fullness	x	2.5	
		=	
Width of Fabric	÷	54”	
		=	
Round up to the nearest whole number		=	
<b>*Number of cuts needed</b>	=	=	

### B. Figure Cut Lengths:

Finished Length		_____	
Hem (standard 10”)	+	_____	
Heading (standard 10”)	+	_____	
Extras (poufs, top ruffles, Bishop’s Sleeves or puddles) add 18” ea	+	_____	
<b>*Cut Length</b>	=	=	

### C. Figuring in a Pattern Repeat:

Total Cut Length		_____	”
Pattern Repeat	÷	_____	”
Round up to the nearest whole number		=	
Pattern Repeat (nearest whole number)	x	_____	”
<b>*New Cut Length</b>	=	=	”

### D. Figure the Yardage:

Number of Cuts		_____	
Cut Length	x	_____	”
		=	”
Convert into yards		÷ 36”	
<b>*Total Yards Needed</b>		=	yards

**Figure Drapery Lining the same as for a solid fabric.**
